

# Bubble Free 3D-Technology

The new 3D-technology is a self adhesive vinyl for solvent and eco-solvent digital Printing . The key is the 3D air release channels which let out air with ease. The advantage of this 3D-Technology self adhesive vinyl tack is:

- 1.Easier Paste
- 2.No Bubbles Appear after Pasted
- 3.Weaker Quick Tack
- 4.Minimal Shrinkage
