

Our Mesh is a lightweight, but tightly woven scrim. This product contains a PVC lining on the reverse side to be detached after digital printing. This special solvent inkjet media, with its open structure allows great wind flow for outdoor advertisement, especially when high wind is an issue. Our Mesh will make building wrapping a breeze.

PROPERTIES	TYPICAL VALUES
Material	Polyester net reinforced with PVC
Backing	PVC lining on the reverse side
Tear Strength (n /5 cm)	230 / 265
Shelf life	2 years from factory shipment ¹
Printability	Solvent, mild-solvent and pigment
Tensile Strenght (n /5 cm)	890 / 920
Weigth (g /sq)	400
Temperature Range	- 20° C – 65° C / - 4° F – 149° F
Shelf life	2 years ²
Width	63" (1.60 m) 80" (2.03m) 126" (3.20 m)

AREAS OF USE

- Billboards
- Displays (outdoors and indoors)
- Banners
- Building murals and store displays

¹ Free from excessive moisture, temperatures and direct sunlight

² Determined on the ink used
