

# Colors Profile

## Installation Procedure

1. Download the color profile desired;
2. With the program closed do it::
  - 2.1 Copy the files with extension **.icm** to the directory:  
**C:\Program Files\PhotoPRINT DX FY Special Edition 5.0v3\ICCProfile\Fei Yeung\**
  - 2.2 Copy the files with extension **.xml** to the directory:  
**C:\Program Files\PhotoPRINT DX FY Special Edition 5.0v3\Devices\Fei Yeung Union FY-2506S\Presets\**
3. Run the program and when you process any image, choice between the installed presets;
4. Before to print in ePrinter, select the **Ink Density** of the file to **80% in all**.

A screenshot of the 'Job Property' dialog box. The window title is 'Job Property'. The 'Filename' field contains 'c:\documents and settings\ricardo valiceli\desktop\arquivos ripados\3'. The 'Pass' field is a dropdown menu set to '6'. The 'Copies' field is '1'. The 'Size' field is '0.237x0.056:0.01'. The 'Margin' field is '200'. The 'DPI' field is '360x360'. Below these fields are seven dropdown menus for 'Ink Density' labeled 'All', 'K', 'C', 'M', 'Y', 'LC', and 'LM', all set to '80%'. The 'Start printing at the Passes' field is '0'. There are 'OK(O)' and 'Cancel(C)' buttons at the bottom right.
